

KAISE-KPB22

Solar Power Bank

Features

- 22.5W super fast charging, compact and portable with large capacity.
- Equipped with Lightning & Type-C output, it can charge two devices simultaneously.
- Support 2 recharge methods: solar energy charging + AC charging, making it more convenient to use.
- Tier-1 lithium-ion battery cell, longer life and high safety.
- Multiple protections – overcharging protection, overcurrent protection, over-discharging protection, temperature protection, short circuit protection, etc.
- LED display – power indicator.
- High brightness LED flashlight with three levels of adjustable lights.

General Specifications

Item	Description
Model	KPB22
Capacity	5000mAh
Input	Type-C 22.5WSolar charge: 0.6W
Output	Type-C 22.5W*2/Lightning 2A PD3.0/PD2.0/QC3.0/QC2.0/AFC/FCP/SCP5V /3A 9V/2.2A 12V/1.5A 10V/2.25A Total output: 22.5W
LED light	1W (lighting/flash/SOS)
Dimension	87*56*18mm (L*W*T)
N.W.	115g
G.W.	157g
